## Upload, view, and share photos on the go

Adobe® Photoshop.com Mobile is the easiest way to upload, view, and share your photos online from your phone:

- Upload and store photos online as soon as you take them (get 2GB of storage free)
- View your online photos and albums from your phone
- Share them wherever you are

All you need is a supported Windows Mobile® phone and a [Photoshop.com membership](#). To download the beta, follow the steps in the blue box above or type [m.photoshop.com](#) on your phone's browser.

## Supported phones

More Windows Mobile phones will be added. Check back for updates.

## Seeing is believing
